Ronnie Mueller #4- Brenda Rupp

Dear Ronnie,

To Ronnie, Here we are standing in line for graduation tickets. This year went by quick didn't it. It was fun. I'm glad we got to be friends this year. You really are a one-of-a-kind guy. I wish you much success through your whole life. You take care of yourself. Hope to see you around. Love & Best Wishes.

Roxanne Vasquez

P.S. I'll SEE YOU AT GRADUATION.

AFA

Dear Brenda,
Thank you for your letter. I'm glad you had a good summer. I'm looking forward to my senior year. I'm glad you had a good summer. I'm looking forward to my senior year. I'm glad you had a good summer. I'm looking forward to my senior year.

Ronnie (Bozo)
I'm glad I had the
privilege of knowing you
all these years. I hope
you have a successful future
and a great summer. Hope to see
you Ardsend. Friends Always.
Wendy Williams

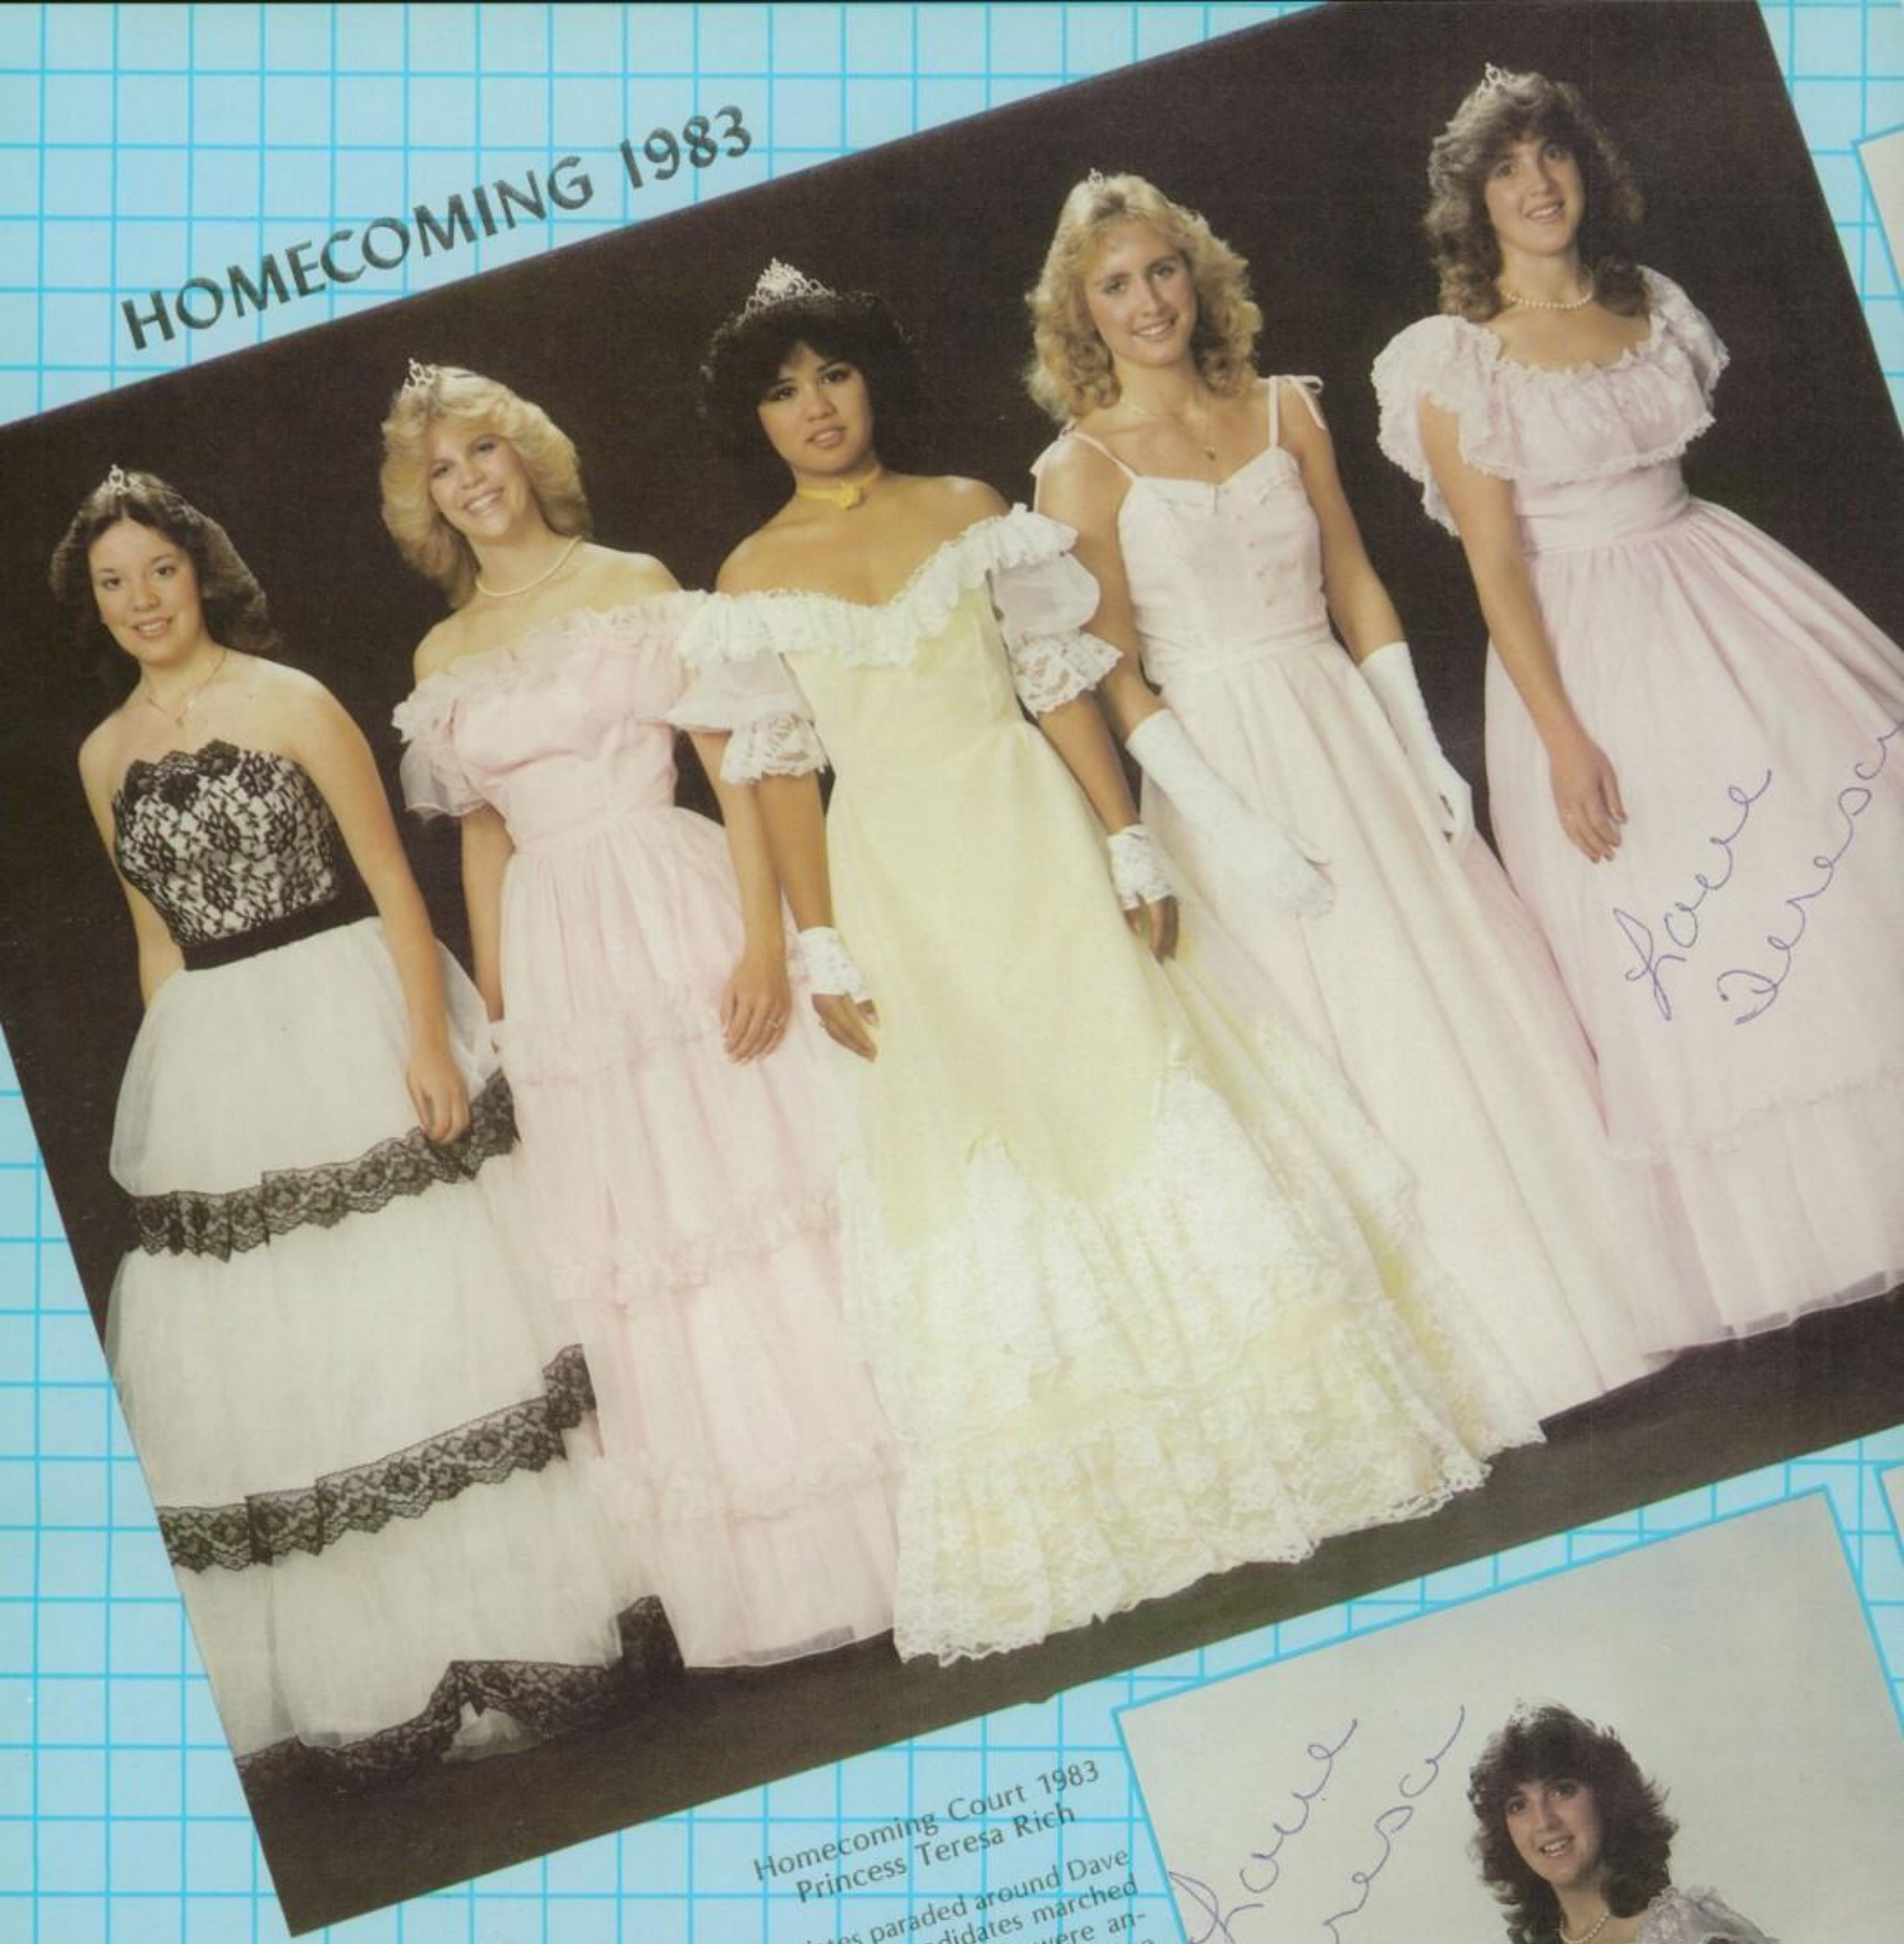
HOMECOMING 1983



Homecoming Court 1983
Princess Teresa Rich

On October 21, the 1983 queen candidates paraded around Dave Boyd Field in the traditional Corvettes. As the candidates marched onto the field, their accomplishments and future plans were announced, while the drill team saluted each individual. One could see by the girls' expressions that they were feeling a combination of nervousness, excitement, and a feeling of honor and pride. Although a dense fog rolled in during the half-time ceremonies, nothing could dampen the girls' spirits. Upon the announcement, one could almost hear the drum-roll while the candidates waited in anticipation. Edwina Insilan was announced as the 1983 Homecoming Queen with Angela Jimenez as the runner-up. After the hugs and kisses, all the girls, including the returning Queen Judy Jimenez, enjoyed the football game from a front row view. The Queen candidates were: Edwina Insilan, Angela Jimenez, Becky Pulliam, Teresa Rich, and Julie Segura.

This year we added more to Fashions & Fads by photographing some of the different styles at SANTA MARIA HIGH SCHOOL We chose these students to represent the different styles on campus- Surfers, Uptown, Casual, Punk/New Wave, Preppy, and Chicanos.

The chosen students were asked to be photographed in the studio of the photo classes. (Thanks to Mr Bunkleman, Maria Nevarez, Max Orendorff, and Natalie Diggins for their assistance.)

Surfers represent those who love freedom and a water-based culture, whereas **Uptown** represents those fashion-conscious individuals willing to deck themselves out in high fashion.

Casual represents everyday style and comfort while **Punk/New Wave** reflects a rebellious look at traditional roles & fashions. **Preppy represents the academic look while Chicano** reflects Mexican/American fashion & culture.

SENIORS

THE CLASS OF 1984

Remember our first day of school and how scared and insecure we were? We heard talk of how "typical freshmen" acted and hoped to God that we didn't act that way. We thought everyone was so mature and wondered if we would ever be that sophisticated. We'll never forget those stand out teachers like Mr. Johnson, Mr. Jimenez, Mr. McMorris, Mr. Yanez, and Mrs. Orvis, who got us off to a wonderful start. And, of course, our freshmen counselors Mrs. Ball, Mr. Torrez, Mr. Miranda, and Mr. Magnia, who made sure we had smooth sailing in our first year at S.M.H.S. Ah ... our freshmen year, a time for wonder and anticipation. Soon came our first rally. Wanting to yell and show those upperclassmen that we were made of something, we opened our mouths, and in frustration, nothing came out. No one had told us about class spirit and pride. This was something that took us four years to acquire. In the end, it was pride that tied together the class of '84 and made us second to none.

Returning for a second year, we were more secure and had more confidence in ourselves. Now we had someone to pick on; to look down upon. We thought we were **so** cool! When the first rally of the year came around, as usual everyone beat the puny freshmen, even we did! (Boy, did that really boost our ego.) But as the year progressed, the freshmen began to get louder and louder. After a while, there came a time when they actually beat us. (Weren't you ashamed?) Hey, but this didn't dampen our spirits. This was the year when we really showed Righetti. Although it was a disappointing game, we sure had fun that day. It all started with an early morning raid at Righetti followed by a scrambled egg breakfast. This was also the year that many friendships began; friendships that will last a lifetime and make us the awesome class of '84.

Coming back as Juniors was a great feeling knowing that we were finally in the upper class. We were constantly told that this was our academically hardest year, and it was. Mr. Randall and Miss Dunn tried to convince us that History was vital to our education, but we just wouldn't listen. We were involved in more important things like football games, boyfriends, girlfriends, and Saturday night parties. Remember Homecoming Week when everyone was busily preparing their floats for the rally? As the floats were displayed in front of the student body, there was a count of only three class floats. What happened to the Junior float? We didn't have one, but we did manage to take fourth place. What an accomplishment! We bowed our heads in shame, the freshmen still beat us! As the year came to an end, the anticipation of becoming a Senior was too much to handle. Good-bye class of '83, the class of '84 will rule the school!

We're Seniors! We make the rules now. After three years of waiting we are finally on top, and proved so at our rallies. The spirit of '84 prevailed when our football team had an undefeated season. We'll remember the night we shut out Righetti 7-0. We'll remember the fun times we had after the games, and all the good times with our friends. Our four years at S.M.H.S. will be treasured until eternity. They will be remembered as the years we grew from being scared little freshmen to mature developed seniors, ready to take on the world. We ordered our caps and gowns dreaming of June 14, 1984, when we will walk across the stage and enter a life of new expectations and challenges. Although we will say our last good-byes and never return, the Class of 1984 will be remembered ... always!

This year we captured the "Senior Spirit" through the Sr. Profiles. Each student was given a chance to answer several questions about themselves such as their favorite phrase or quote, their favorite high school memory, and their future plans and goals. Another way in which we caught the "Senior Spirit" was through the Senior Personalities. The Personalities were elected during the first class meetings, and pictures where taken at Images.

SENIOR CLASS OFFICERS: Carla Albertoni, President; Joannette Baysa, Vice President; Carrie Dewey, Secretary; Elaine Shiroma, Treasurer.

SENIOR SEMINAR WEDDINGS

Top Right: Ben Gutierrez gets the garter. Top Left: Wake up, Ludi, your court is all ready. Upper Left: That magic moment-the wedding vows. Top Right: What time did she say she would be here? Right: Nora and her hubby. Left: Julie and her proud "parents"

Senior Seminar was a very rewarding and exciting experience for those students who participated and worked hard through the year long class.

To raise funds for their weddings, they made garters and ties and had a hush day.

They learned about decision making and dealing with family problems. They worked together planning the big event and putting together family situations.

THE RALLIES OF 83-84

With Allison Lees and Laurie Ashbrook as Commissioners of Programs and Rallies, this years rallies were very spirited and gave everyone a chance to show their pride for their class as well as for all of S.M.H.S.

Class competition, the class yell and the rally festivities of Homecoming were among this years highlights with the Seniors earning 400 points for class competition, the Juniors 450, the Sophomores 300, and the Freshmen 200. The Juniors won for their Homecoming float getting 100 points, the Sophomores received 75, and the Seniors received 50. The Freshmen class did not enter a float this year.

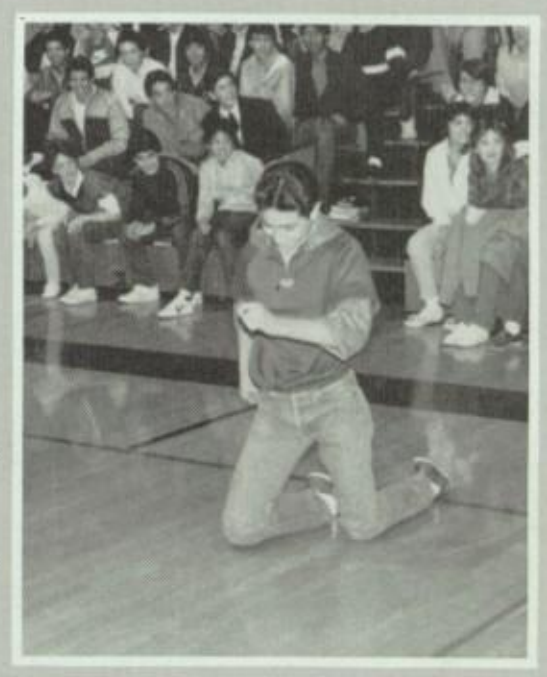
The drill team, cheerleaders, and songleaders performed routines for rally entertainment and each rally was usually held on a dress-up day which made the rallys even more spirited.

What really made this years rallies a success though was participation of many enthusiastic students who showed their pride and spirit for being a Saint.

The drill team perform a high kicking routine at one of our football rallies.

Seniors show their spirit.

"Strike three! You're out!"



"I lost my contact lens!"

Above: Some rallies got a little out of hand.
Below: "It's not nice to point."

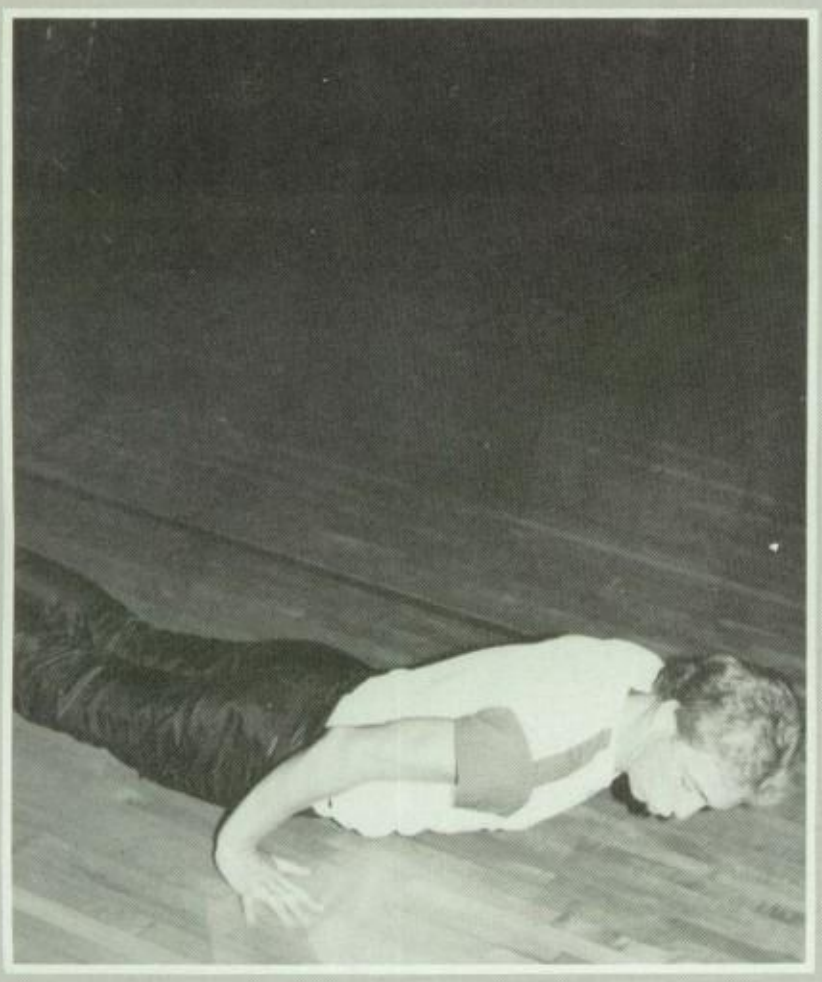
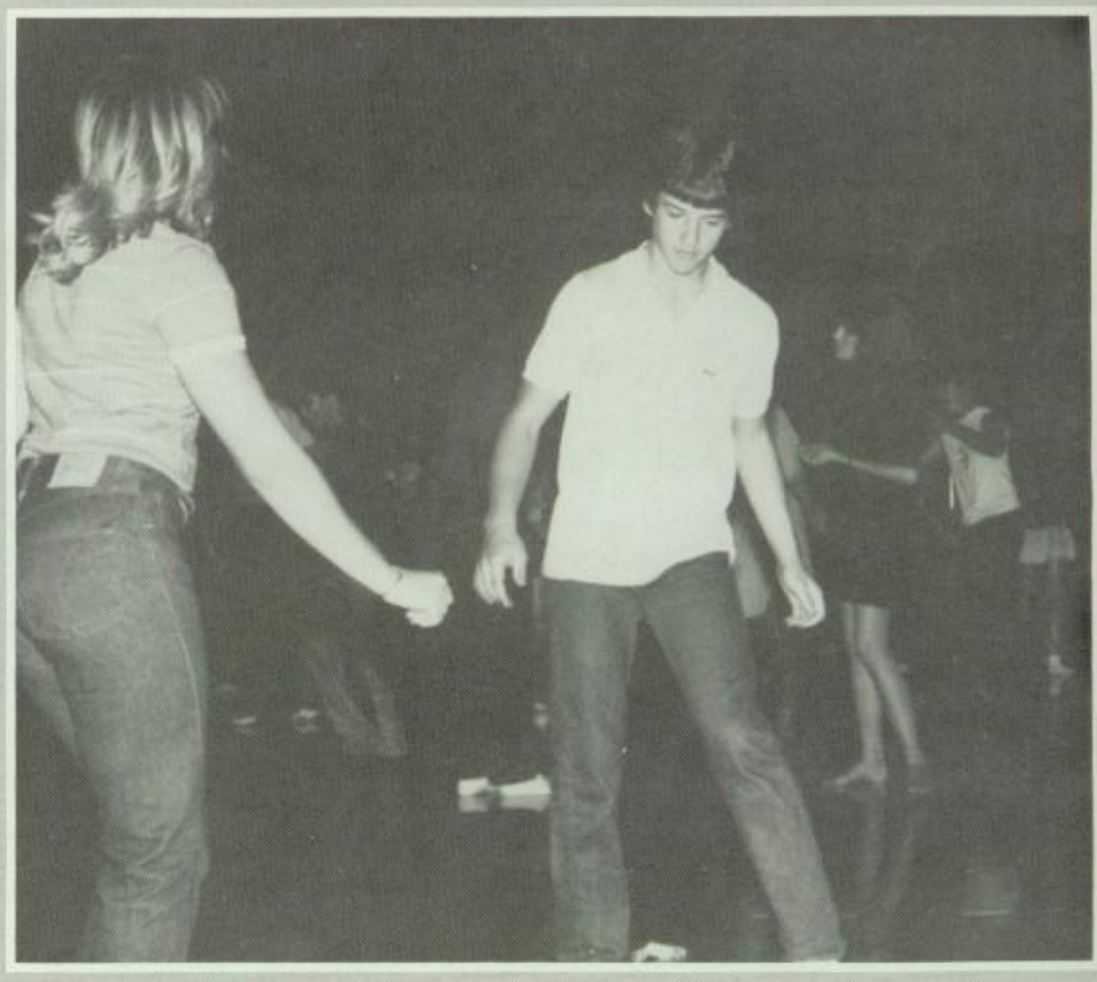
Freshmen get strung up during class competition

Tina Nunez sings the traditional alma mater at a basketball rally.



Jamie Jewel always confuses dancing and push-ups.



When Donny Ruskauf dances, he really cuts up the floor.

This year's dances really roared. It began with all the girls dressed like Jennifer Beals, and ended with all the guys in a corner break-dancing. But after the dances, love conquered all as pairs walked out together.

Don't they make a cute couple?

On December 16, 1983 many clubs and organizations joined together to create Santa Maria High School's 1983-84 Christmas Fair. Booths were set up early in the morning and by second period the stage was set. The atmosphere soon became warm and friendly and also reflected our Saint pride.

Many activities featured this year are continuing traditions. They include mock weddings, pictures with Santa Claus, food sales, buttons, and shop class displays.

The 1983-84 Christmas Fair will always bring back fond memories.

Wierd Scenes

WEIRD SCENES INSIDE THE GOLDMINE

Thru the darkness
We notice the slightest movement
A reflection in the mirror
Intensity will grow
Adrenaline will flow
Into veins of excitement
Grinding teeth
Clenching a fist
Magic is falling
In the silent mist
Screaming minds
Reach for the tower
Now the end
To this desperate hour
You've made it to the climax
Drift down
Escaping the violence
Coming back now
Back to silence
Create life
Live in dreams
Without a goldmine

The Class Ring

Close by the door
he paused to stand
As he took his class ring
off her hand
All who were watching
didn't dare speak
As a silent tear
ran down his cheek
All through his mind
the memories ran
Of the moments they laughed
and ran through the sand
But now her eyes
looked so terribly cold
He'll never again
have her to hold
They watched in silence
as he bent down near
To whisper "I love you"
soft in her ear
In touching her face
he started to cry
He put on his ring
and wanted to die
And just as the wind
started to blow
They lowered her casket
deep in the snow.

Friends . . . Friendship

Friends are what we need,
Friends are what we like,
Friends are what we love.
Friends are nice, kind, beautiful, and sweet.

They are one of the easiest things to find.
Friendship is what everyone needs-
To help your friends,
And to do them good deeds.

A friend of yours,
A friend of mine.
A friend that you can trust . . .
And laugh with,
A friend that you can understand,
And help one another.
The friendship of the two of you . . .
It will never stop, it is never through.

Friendship is through and through.
So take my word,
And with it hold . . .
The memory of friendship
Which is very old.
And so make sure you have a friend.
And keep friends . . . friendship
Till the very end.

Together

Together we must stay
Together we must be.
Across the land, across the sea
In each other's company
Where we belong.
Together in marriage,
Like a romantic love song.
We must be strong,
We must be one,
Together in love, and in fun.
One plus one will equal two
That's why you plus love equals true.

With five second left in the game and the clock running, the Saints were behind 21-22 against Quartz Hill in the CIF playoffs. The discouraged Saint fans were leaving the stadium hopelessly, when all of the sudden the most exciting play of the year began. Cossa hiked to Duguran, Duguran passed to Lewis, Lewis then pitched the ball back to Johnson who went on to score the unbelievable winning touchdown! This extraordinary game-saving occurance is known as "The Miracle at Dave Doyd Field" and "The Immaculate Connection".

This game depicted the team's strong determination to achieve and excel. It represents the high spirits and talents that guided the Saints through a challenging pre-season. Their courage and stamina led them to the title of undefeated Northern League Champs and even further into third round C.I.F. playoffs.

The success that the Saints experienced was due not only to the star players but also to those who received less recognition, yet played a priceless role in the Saint's victories both at practice and at the games. The coaching staff led by Barney Eames combined strategy and potential in an effort to unite and inspire their team. This inspiration was especially noticed in those who earned All-Northern League honors: Defensively· Bobby Watson, Junior Zepeda, Jack Garcia, Robert Cossa, and Scott Wilhite, Tony Lewis, David Andrade, and most of all our star running back Eddie Johnson. Eddie's personal accomplishments along with title of All-Northern League Most Valuable Player were 27 touchdowns and 2,400 yards in this incredible season.

The most significant match of the pre-season was a national powerhouse from the Los Angeles area, Edison High. Though the Saints didn't win the game according to the scoreboard, they didn't lose it either. The final score was 14-14. With this tie, the Saint's gained the confidence needed to face anyone.

Highlighting the league season, the Saint's confronted their most challenging opponents, the Lompoc Braves, whom they went on to defeat 49-8. The Saint's concluded the Northern League with a shutout win against their long time rivals, the Righetti Warriors, 7-0.

Was the success of the 1983 Varsity football season due to the overwhelming support of the fans, the performance by single players, or just the fate of events? No, it was the combination of dedicated and knowledgable coaching, a united and spirited team, and weeks of vigorous practices. Congratulations to all who participated in this awesome season, and best of luck to the team in 1984.

JV FOOTBALL

The 1983 Junior Varsity football had a fine season under the leadership of Coach Derrick Beebe and Assistant Coaches Ricky Johnson and Russ Zierman. The Saints managed a 5-5 record, but they were 3-2 in the Northern League. The Saints were led by Most Valuable Player, Mark Bachman, as well as Bob Brewer, Mike Eames, and George Herrera. The Saints defense was particularly strong and the great spirit of the entire squad was inspirational to whoever happened to be in the game. With this fine crop of JV players, the Saints should have another successful Varsity season in 1984.

FROSH FOOTBALL

As most people know the frosh year in any sport is a building block for the sophomore and varsity years to come. This was true for the Frosh football team. They set out to win the Northern League and to show progress throughout the season. Although they were unable to capture the league title, they did show a considerable amount of progress. This progress was best exemplified by Steve Madrigal, the best defensive player: Matthew Almaguer, the best offensive player: and Chester Jellen, the Most Valuable Player. Also improving a lot were Danny Robledo and Ray Allcorn, who were the leading scorers for the Frosh team.

The team went up against some tough challengers, including Lompoc and Righetti, but managed to come away with third place in the Northern League. The defense was the strength of the Frosh team and they also established a good passing offense. Although their record for the season was 2 wins and 5 losses, they always kept their team spirit up. Now the Frosh football players of '83 are looking forward to successful J.V. and Varsity years.

Varsity Basketball

Basketball fortunes on the Saints hardwood took an upward swing as the Bill Yanez-coached squad completed the season with a bang and in the process received a C.I.F. playoff bid. The Saints, a junior-dominated squad, started slowly loosing these one-point games, but then began to jell as they won two of three games at the Damien Classic in LaVerne. Following that, the Atascadero Christmas Tournament produced a consolation championship. League play followed with the Red and White squad finishing with a 6-4 mark in one of the toughest league races in years. Two over-time losses to Cabrillo and Righetti were the difference between first and third place.

Leading the squad were top scorer, 6'4" junior Eric Walker; Tony Lewis with his exciting leaping ability, and the excellent guard play of hot shots Tom Yanez and team capatin Pete Duguran. Alternating at the fifth starting spot were aggressive Tom Avalos and marksmen Tim Hearst. With Duguran the lone senior, hopes are really flying high for the Northern League Crown in '85.

This year J.V. team finished the season with a won-loss record of 3-7 in league and 7-14 for the year. Although finishing below .500 many of the games lost were by 5 points or less.

Good defense, hustle, and a never-say-die attitude characterized this years squad. The team played hard every game even though being alot smaller in height than other teams.

One weakness which hurt us this year was the lack of rebounding greatly due to our lack of height. Injuries also plagued the team with five different players injured throughout the season.

This year's award winners were: Chuck Miller, who won M.V.P. and led the team in virtually every category (Most points, rebounds, assists, and steals); Richard Treinen and Steven Goetz were the most improved players and did a great job in their first year of high school ball. Other team members who helped tremendously were Michael Eames who was our floor-leader and Eddie DeGuzman who provided the team with alot of enthusiasm and team spirit.

The pre-season began with an up beat tempo as the Frosh handcuffed the Bishop Diego team in the opening scrimmage by a 39-16 score. Other highlights included a 67-39 rout of Morro Bay, two overtime victories against Atascadero and Cabrillo, and winning the Consolation Championship of The San Luis Obispo Tournament.

Jason Regalado, who was voted Most Valuable Player by his teammates, was named to the all-tournament team. Other honors were earned by Joe Cardenas (Most Improved) and Michael Kon (Most Inspirational and Academic Achievement).

V

This year's varsity soccer team was a young and much improved team. The team's record was 4-9-3, which put us in fifth place in the Northern League. Our biggest challenges were Righetti and Lompoc. Team spirit was high all season. Leading scorers were Orlando Servin, Refugio Arzaga, Juan Luna, and Eddie Marquez. The most improved players were Saeid Termechi and Eddie Marquez. The most valuable players were Ruben Cortez, with the most saves, and Javier Hernandez, who was the most aggresive. This year's varsity team had a good strong defense but not such a strong offense because of lack of experience. Coach Mashoon's goals for the team is to win the CIF Championship in the next couple of years. Coach Mashoon's general impression was that it was a young team, which gained a lot of experience in the games. We will have a stronger and more experienced team next year because we will only be losing two starting players.

Our J.V. Soccer team this year was very coachable and dedicated. Although their record was 5 s, 9 losses, and 2 ties, they had the best spirit their coach, had seen since he began coaching. most valuable players were Sal Peinado at half back (who could really play at any position), id Lopez at center forward (who scored the most goals), and Joe Martinez at goal keeper o prevented many opposing team's goals from being scored). The team was also aided by the st improved players Gunnar Stare, Salvadon Bedolla, and Rudy Ramirez. At the first of the goals were set to establish good discipline and respect as well as learning soccer skills. ing the course of the season these goals were achieved by every member of the team. Their ding scorers, David Lopez and Rudy Ramirez, helped the team against their biggest challeng- Cabrillo and Lompoc. For next year Coach Sanchez's prospects are David Lopez, Rudy irez, Sal Peinado, Roger Peinado, and Jose Fernandez. Varsity team: Front: Victor Muro, Allen Granski, Middle: Mike McVicar, Jim Dvorak, Sean Dolly, Back: Eric Livermore, Richard Russell, Anthony Chavez, Ron Oehm, Ned Lucia.

This year's varsity Water Polo team at Santa Maria High School was "the best team I've ever coached", according to Karl Bell, their head coach. The team's great performance during the year is credited to their hard work during the summer. While most people were relaxing this summer, our Water Polo team was traveling to Santa Barbarba (three times), Newport, and Visalia for tournaments in which college teams as well as high school teams were entered.

Besides finishing second in league with a record of seventeen wins and five losses, the team made it to the finals at the Buena Tournament. This in itself was a big accomplishment because no other Santa Maria team ever made it that far. Another first was when they hosted and won their own tournament.

In the first round of C.I.F. Santa Maria was behind Santa Ynez 8-9 with 1:05 left in the game; Santa Ynez had the ball and were a man up on Santa Maria when Jim Dvorak and Richard Russell ran a defensive play, got the ball and scored with :16 left on the clock to put the two teams into overtime. In the second overtime, Ned Lucia and Sean Dolly ran a play that scored the game winning goal and sent them on to the second round of C.I.F. They made it to the third round where the soon to be C.I.F. champs defeated them.

Other records for the team were from Ned Lucia. Ned scored ninety-three goals, breaking Paul Tucker's old record of eighty-two which was set in 1972. Richard Russell, Jim Dvorak, Ned Lucia, Eric Livermore, and Anthony Chavez were all named to the All League teams. Five seniors will be leaving, but the outlook is good for next year with seven Varsity players returning. We'll be cheering for you.

Santa Maria's Junior Varsity Water Polo team was strengthened mainly by sophomores this year. The teams outstanding performance was sparked by Steve Shively, sophomore J.V. transfer. As well as being the teams most valuable player, Steve also played in a few Santa Maria varsity games. Other sophomore standouts were Brent Briggance and Sal Orosco, with other standout performances coming by Juniors Scott Inguito and Jose Segura. Besides these five players, a majority of the team was made up of freshman. Considering the team's record of wins and losses, the outlook for next year is extremely good. Just as the varsity team, their main competition was from Cabrillo. After his second year of coaching, Coach Scott McCall has decided to call it quits. Good Luck Guys!

Their greatest challenges were against Righetti and San Luis Obispo. But the seasons end resulted in 5 wins 4 losses in non league competition and 8 wins 2 losses in league to tie with Righetti as "league champs."

The Most Valuable Players for the season were Audrey Armenta, Chris Cummings, Marianne Pasko, Cathy Dvorak, and Elvira Insilian, with the Most Improved Player being Marianne Pasko, however, great improvement was shown by all the girls.

1984 VARSITY SOFTBALL

The 1984 Varsity softball team is a young but experienced group of girls looking to be one of the top three contenders in the league. As in the past years, the Saints will have a commanding defense, along with aggressive base-running and batting finesse.

Success can be attributed to experience. This year's returnees include: Irene Maldonado, Theresa Perales, Wendy Purgarich, Tiara Villines, and Jean Pasko.

We hope to continue the Saint's Softball tradition of being a very competitive team.

CATCH THAT

For some November is a month of Thanksgiving, but for the senior and junior girls it's the month they play their annual Turkey Bowl game. The Turkey Bowl is a game played with a lot of pride and emotion. For the girls this is the time of year when they play as a team, not as individuals. They work very hard with their coaches getting prepared for this game. The game is also special for the coaches. Because the coaches are football players too; their knowledge of the game is critical for their players. As the game neared both teams got last minute instructions from their coaches. The captains Cheryl Small and Karen Tadd for the seniors, and Elaine Ceja and Sonya Rencinos for the juniors met in the middle of the field for the coin toss. The seniors won the toss and elected to receive.

Sonya Rencinos, the junior's kicker, kicked off to start the game. Cheryl Small and Kim Zabala the senior quarterbacks, kept the juniors on their toes. The seniors had too many good runners for the juniors to contain. Keysha Gilbert, Edwina Insilan, and Irene Maldonado drove the seniors to their own goal line. But the seniors couldn't seem to score. So they had to give up the ball to the juniors. When the juniors got the ball they were faced against the seniors "tough defense". It seemed like every time the juniors would snap the ball, Laura Valadez would zoom in and get quarterback, Lisa Bevington. The seniors and juniors both had opportunities to score, but both defenses seemed to get tougher.

As the clock wound down to end the first half, the seniors and juniors proudly marched to their respective locker rooms. While the coaches were telling their player the new plays for the second half, the cheerleaders performed for the crowd. And the 1984 Turkey Bowl King Ben Guiterrez was crowned. The crowd applauded the players as they came out for the second half. The senior kicker, Paula Silva kicked off to start the second half. The juniors seemed to have only one play on their mind, and that was to let Lisa Bevington, their quarterback, run with the ball. It seemed like neither team was going to score. Then in the last minutes of the game Lisa Bevington broke it for a touchdown for the juniors. The juniors added two more points with the convertion to make the score 8-0. But the seniors still had plenty of time to make a touchdown. It looked as though they would come back and score, but they weren't able to push the ball up the field. As the seconds ticked off the clock the seniors and juniors met in the middle of the field to congratulate each other. Even though the final score was 8-0 the senior girls felt they had nothing to be ashamed of. The senior and junior girls want to thank their coaches for all their time and effort they put into this game. They did a great job this year, thanks again to the players and coaches.

This season turned out to be a very successful one for the girl's varsity volleyball team. Great team spirit and a well deserved 2nd place in the league highlighted the 1983 season. With great help from the most valuable players, Jennifer Utitus, Lisa Bevington, Angela Jimenez, and Nancy Morikawa, the varsity team was able to make it to C.I.F. Even though plagued with injuries at the time, the Saints were able to keep their great spirit right to the very end! Their biggest challenges came from Arroyo Grande, who was first in the league, and Righetti, who placed third. Miss Kennedy is looking forward to next year's volleyball team. There will be two returning varsity players, and a strong J.V. team to choose from. Special congratulations to Jennifer Utitus, the most valuable player in the Northern League.

This years Executive Cabinet was hard at work with a great bunch of commissioners. To start off the year, we had our annual staff breakfast which went very well thanks to Rod's cooking. From there on we also had our summer get together. The year got tougher with a winning football season, and Programs and Rallies had their work cut out for them. All the rallies went great, including Homecoming. Thanks girls!

With the first semester over and things slowing down ASB had lots of things planned for second semester. We planned a student/teacher forum, along with a visitation with Righetti on February 29, 1984, "Dreammaker", a Multimedia Production was shown, and was supported by ASB to motivate self-esteem. To end the 1983-84 school year, the ASB had Norm Hull come and conduct a school assembly, which helped promote school spirit.

This year the ASB and BOC got a lot accomplished with the support of the teachers and staff. They were just great this year!

This year's 1983-1984 Varsity Cheerleading squad attended the UCSB CADA/NCA Cheerleading Camp for 4 days. These spirited young ladies received the Spirit Stick 2 out of 3 nights and brought it home which is a life honor. Also they were rewarded with excellent and superior ribbons for the cheers they learned there and performed a few hours later. Preparing for the upcoming seasons took lots of time and dedication from all the girls as they strived for perfection at practice every week. But practice is only a part of a cheerleader's responsibilities. A cheerleader is always trying to be the best person she can be and also she tries to set a good example for her classmates.

Varsity Cheerleading will always be special to these girls along with the great memories of being a cheerleader for Santa Maria High School!

ORGANIZATION

1983-1984 Varsity Songleading proved to be quite an experience. The vivacious squad worked hard throughout the summer and the school year in order to promote school spirit and represent the mighty Saints.

Summer songleading camp in Fresno was an exciting but exhaust ing effort to preprovided a growing and learning experience but also gave the girls an opportunity to work together as a squad; consequently, they brought home a Spirit Stick which represents excellence.

The songleader's schedule was an active and demancing one; painting posters, decorating the locker rooms, and dressing up for those "impossible crazy" days only dented their responsibilities. Preparing for performances was often frustrating and time consuming but well worth it when game-time came around.

Overall, this year's songleading squad proved to be an active, united and outgoing group. The memories they share will undoubtedly serve to remind them of their high school years and of the special contribution they offered to their school.

Vocational Agriculture and the Future Farmers of America are an integral part of the #1 industry in the Santa Maria Valley, Agriculture. Through these programs, students are taught by a hands-on method of learning. Through this way of teaching, the students are taught skills that will enable them to get a job in the various field of Agriculture. The students can put those skills learned in the class to work by competing for awards on judging teams. They also can learn leadership skills by becoming involved in the legislative part of the FFA.

So to all of you who are interested in the field of agriculture, come on out and see the opportunities that FFA and Vocational Agriculture have for you. Because together, Vocational Agriculture and the Future Farmers of America are "KEEPIN' AMERICA ON THE GROW".

PRINCIPAL

DR DORIS CORDER

We did it! With your assistance, the 1983-84 school year was a most successful one. It is always a pleasure to experience a year in which students, staff, and parents work together so harmoniously for the benefit of the school.

Santa Maria High School's student body represents a wide variety of cultures, customs, and desires with students having differing plans for their post high school carreers. While major emphasis is placed on test scores and academic work, participation by students in outside, school-related activities is also extremely important. In fact, there are many things students have in common during their four years at Santa Maria High School. There are many opportunities to share in student government, clubs, activities, and athletics. All reflect students working together for a common goal.

We are very proud of our school. It is through the cooperative efforts of the entire school community that Santa Maria High School is able to maintain high quality education.

Doris Corder

The wicked witch of S.M. High?

ASSISTANT PRINCIPALS

RICHARD WELCH

The 1984 Review preserves the look and feel of a very special time in all our lives. This year nearly 400 "Saints" graduated from Santa Maria High. Each has carried on the tradition and pride that has grown with our school for more than 90 years. Each of you has learned your personal strengths and limitations, the range of adult careers and professions open to you, and has developed the skills required for success in our society.

I congratulate the teachers and students of Santa Maria High. You possess the strength and character for which the entire community can be proud.

Congratulations to the class of '84. You have had a great four years. I know that you will continue to contribute to the community as you move on to new experiences and challenges. You are a group of highly motivated, well-educated young adults, and I'm extremely proud of each of you.

Richard Welch

FRED MILLER

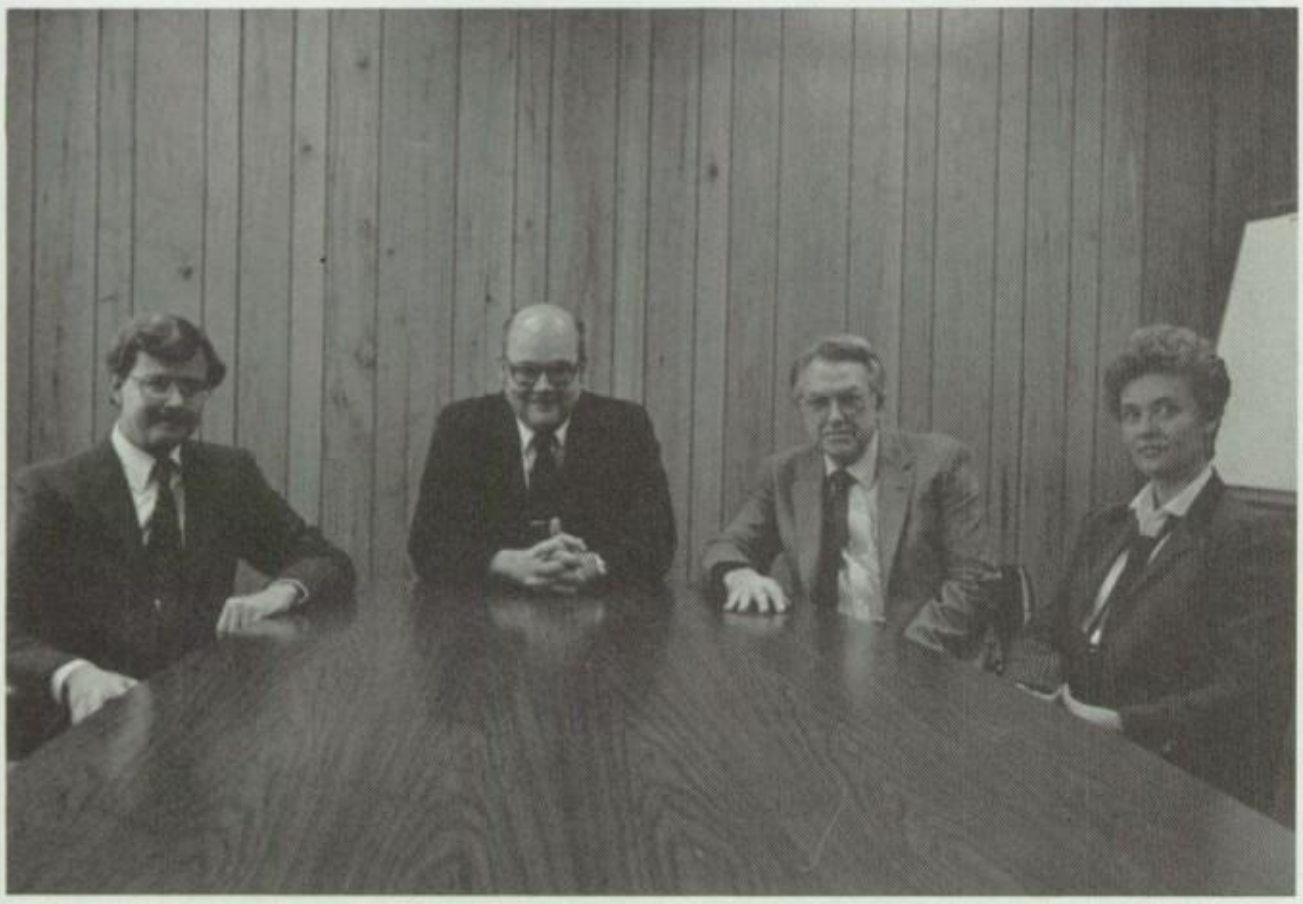
Many years ago my career goal was to have a job that:
Did something positive for others,
Fed my family,
Had the respect of the community,
I was associated with,
Was worth going to.

In the past, this job met my goals most of the time. This year, Santa Maria High School gets 100%. I wish I knew why this has been such a great year. I don't—it must have been the efforts of all of you: parents, students, and staff.

It's an awesome high school!

Fred Miller

ADMINISTRATION



Wally Upper, Assistant Superintendent/Business; Larry G. Ruttan, District Superintendent; Clark Miller, Assistant Superintendent/Instruction/Personel; Bonnie Milhollin, Director of Administrative Serivces; Not Pictured: Ken Corcoran; Coordinator of Special Education.

DEAR STUDENTS:

You have lived up to your reputation! Before I became superintendant of this district, I had heard many good things about the schools, staff, students, and community. In the few months since I've been here, I have been pleased to discover even more positive aspects about your school.

If I had to describe Santa Maria High School in one word, I would choose "vitality". Even though some classes, activities, and maintenance services have been severely cut due to budget restrictions, it is evident that people at Santa Maria High School **care.**

This is demonstrated in many ways. Each year, your graduates earn thousands and thousands of dollars in grants, scholarships, and other aids so that they can pursue higher education at colleges, universities, technical schools, and through the military. Academics count with you, and you show it on the record.

Vocational programs at Santa Maria High are also outstanding, with all four departments producing award-winners and preparing students for the world of work.

Your responsiblity is to learn to seek out problems and to help find ways to solve them. Each one of you has the potential to make a significant impact on our world — and that begins right here by getting an education, taking pride in your school and campus, by welcoming visitors and showing them our successful programs, and by joining with other studennts in an atmosphere of mutual respect to achieve goals which will help all of you.

I'm very proud that the sense of vitality grows stronger at Santa Maria High School, and that I have the good fortune to be associated with you all.

Sincerely,
Larry G. Ruttan

GUIDANCE

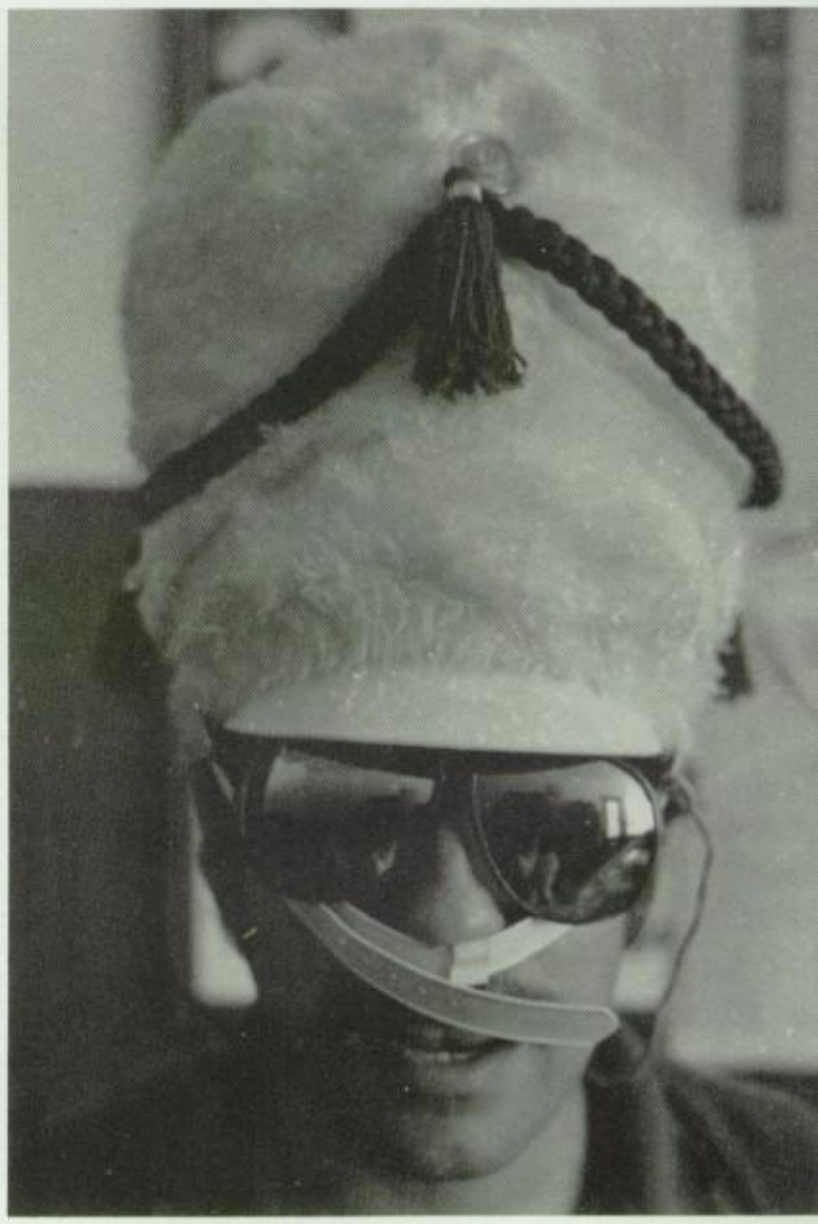
Guidance Staff: Top Row: Tami Wielenga, Marilyn Jacques, Pat Ramos, Maggie Honeggar. Bottom Row: Jane Conley, Vivian Yanez, Cynthia Gordon, Lori Gipson. Not Pictured: Kathy Brackeen and Carol McCann.

This year Margaret Honeggar is coordinating the Guidance Office's many functions. With dedicated staff of technicians, our Guidance Staff helps students plan careers, set goals, and cope with every day problems. The technicians are split into groups which advise Freshmen, Vocational Prep, and College Prep.

Far Right: Our illustrious Activities Director John Rodrigiez. Right: Carol McCann on the rampage.

ACTIVITIES DIRECTOR

John Rodriguez is Activities Director at Santa Maria High School. He puts in many dedicated hours of hard work organizing and supervising student activities and rallies, works with ASB and student government, and is in charge of other duties like the Daily Bulletin and Parking.



SCHOOL IMPROVEMENT PROGRAM

Left: SIP funded trash cans helped our students "Can it". Below: SIP also funded computers and software.

hool Improvement Program: Back Row: Jerry Klein, Richard Welch, Fran Lundin, Fred Miller, Jim Orrell. Middle Row: Leon gun, Doris Corder, Licha Vasquez, Jennifer Hemstreet.

The School Improvement Program, headed by Jennifer Hemstreet, has provided the school with many programs and educational hardware. Computers, trash cans, readers and aides are just some of the services provided through SIP funds. SIP adds approximately $58-$133 per pupil to the yearly cost of education.

BUSINESS

Business Department: Tony Dinapoli, Judy Davenport, Ruben Salazar, Kathy Andrews Below: Leon Sagun

Our Business Education Department is one of the best. Many students who graduate from Santa Maria High School with a business major are in demand in the business world of the community. Many of them continue their education in the secretarial science department at Hancock College.

This year the business Department received 10 Apple IIE Computers, making a total of 16. This allows students opportunities to learn basic programming, word processing, tutorial programming, etc.

Every year the Future Business Leaders Of America students compete with those of other Southern California Schools. They compete in Shorthand, Typing, Accounting, and various other areas. In the past our students have been outstanding in the computer areas.

A new course started this semester is Computers in Business, which offers students the opportunity to gain hands-on experience in programming and working through various programs on an individual basis.

The Home Economics Department is a very important part of Santa Maria High School. It does the most in preparing students for life on their own, as the other departments work to prepare students for college and occupations.

In such classes as Foods, Clothing, Interior Design, and Creative Home Arts students are ready for setting up their own homes and getting the basic things they need for living. Consumer Awareness teaches them how to spot good ideas, and how to get the most for their money.

Senior Seminar and Single Living prepare students for the lifetime ahead of them. It teaches the realities of life, what independence means, and how to work with people. It is here that students learn to make responsible decisions and to take responsibility for their actions.

Home Economics prepares students for a career in one of the classes they offer, or for life in general. No matter what a person does, after high school, Home Economics prepares them for a life-time of a responsible adulthood.

Trades and Industry offers several skills classes to vacational students. Through the classes offered, students can be prepared to go into special career in a class.

Mechanical Drawing, Architectural Drawing, Technical Sketch, and survey of Drafting are offered for our future architects. For those who wish to become mechanics, or go into any other related field, Small Gas Engines and Auto Fundamentals are offered. A Vocational Auto class is offered to those who simply want to learn something about cars. And for those who like working with wood and plastics, Trades and Industry offers Survey of Wood, Survey of Plastics, and Reinforced plastics classes.

These classes allow the students to leave the auto, plastic, and wood shops with marketable skills. They are ready to go to professional classes if they want a career in one of these areas, or they can get a job to support themselves while they study something else. With some of the most well-equipped shops in the country, who would hesitate to hire a Santa Maria High School Trades and Industry Major?

tudents in art classes have opportunity for creative self expression.

The Humanities Department is a very important part of Santa Maria High. The classes offered in this area are art, photography, and chorus. These classes teach the students to appreciate fine arts. It also provides them with an opportunity to participate in visual and performing arts.

Chorus performances and art and photo shows at the Santa Maria Arts Council and Santa Maria Public Library give the people a chance to see what the students are learning and doing.

Because of higher political demands for more academic classes, the Humanities Department has gotten smaller. We feel that we should hang on, though, and keep our classes going. We are going to grow and expand to provide more students with arts opportunities because we offer the best classes for creative expression and performance.

HUMANITIES

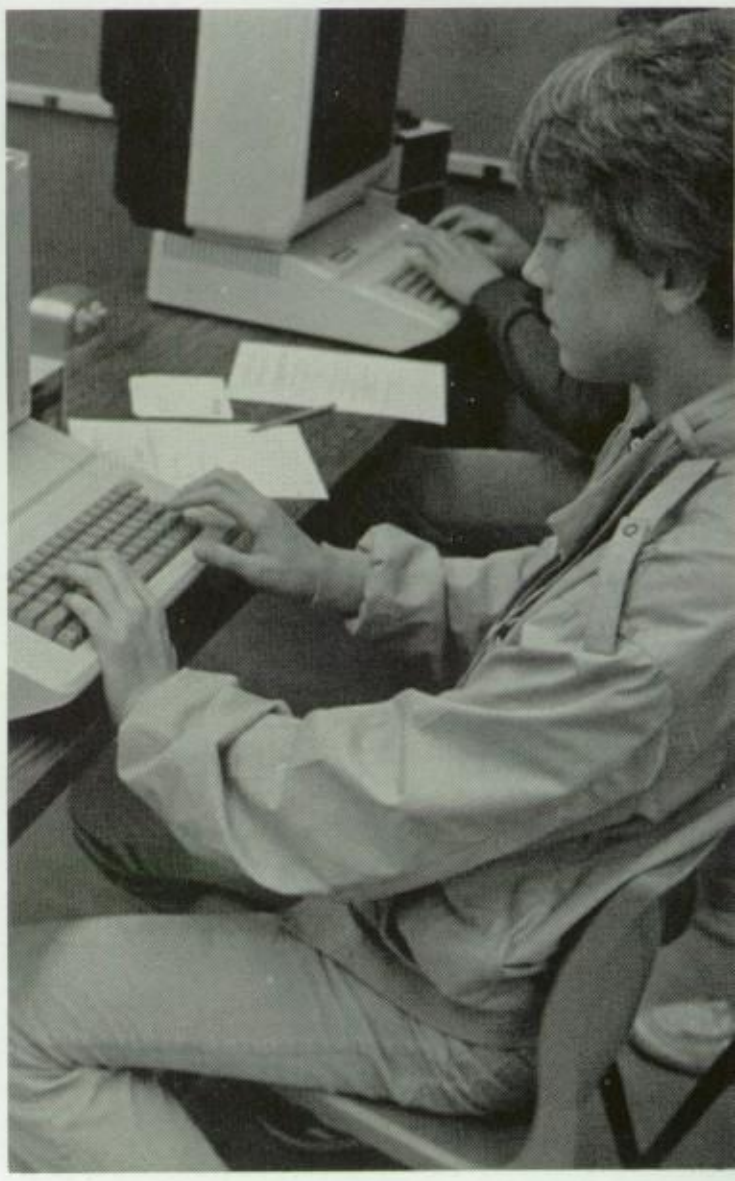
MATH

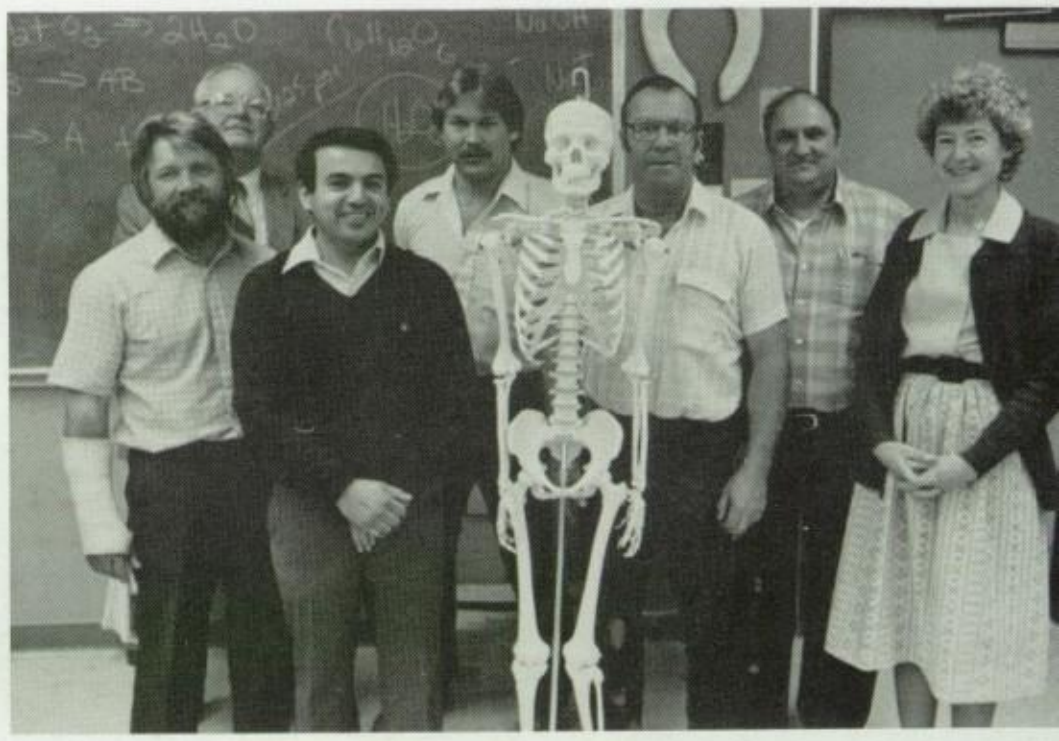


Back Row, L-R: Colleen Kendall, Karen Talley, Beth Brownwell, Lily Ball (Math Lab), Gaylen Clark, Howard Covington (Dept. Chairman), Kevin Statom. Front Row: Tom Urbanske, Phyllis Chiado, Phil Morlan, and Chris O'Dell.

Santa Maria High School's Mathematics Department, headed by Howard Covington, wants to encourage every student to take as much math as possible while at high school. Courses offered include Basic Math, Consumer Math, Vocational Math, Computer Math, Two-year Algebra, Algebra I, Geometry, Algebra II, Math Analysis, and this year there's a new course called Senior Math. Our Math teachers want students to work hard and settle for nothing short of their best efforts. Right: Michael Ratchford on the Apple II computer.

SCIENCE

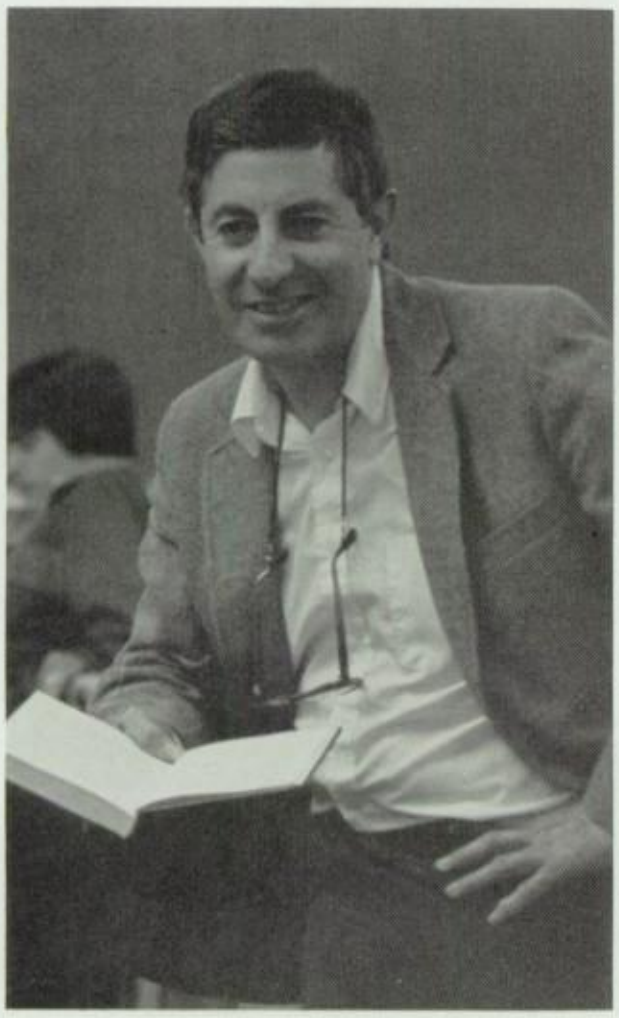
George Yeh and Eric Fujiwara throw their Physics project overboard, hoping that the egg inside won't break. (It didn't!!)



Back Row, L-R; Tom Crough, Skip Sage, Fran Lundin. Front Row: Ed Spalinger, Bobby Ogas, Chuck Overholtzer, and Phyllis Chiado.

We have a great Science Department here at Santa Maria High that is currently being headed by Mr. Fran Lundin. Science courses include Practical Science, General Science, Biology, Chemistry, Physics, and Life Science. This year, Mrs. Chiado took over the Physics class while O'Dell, Chavarria and Overholtzer also joined our Department.

LANGUAGE



Mr. Frias strikes a pose.

Ms. Dunn smiles as she thinks of all the papers that Toby is going to have to grade.

Below: Mrs. Orvis shows a smile.

This years Language Department is headed by "Our Friend" Mr. Frias. Being the largest department in the school with 15 teachers and 65 sections, the choice for classes is almost limitless. The newest class in this department is English II(Honors) taught by Mrs. Licocscos. This department requires 30 credits to graduate. Good luck!!!

MEN'S P.E.

This year the P.E. Department had some new programs to offer other than the traditional team sports such as Softball, Football, and Basketball. CPR Training was introduced along with Aerobic Dancing, Mini Trampoline Conditioning and Expanded Weight Training/Conditioning, Swimming, Weight Training, Racquet Ball and Skating were some of the other programs.

P.E. isn't the only thing some of our coaches teach. Janice Kennedy's Volleyball team went to the first round CIF Championship and coach Barney Eames Football team made it to the semi-finals in CIF. Karl Bell's Water Polo team had its best year in its 22 years of existence by making it to the quarter finals in CIF. Coach Yanez's basketball squad went to CIF for the first time in ten years. What a year!

ATHLETIC DIRECTOR

elow: Mr. Baldiviez shows who he supported in the Super Bowl. Right: "What are you up to ow?"

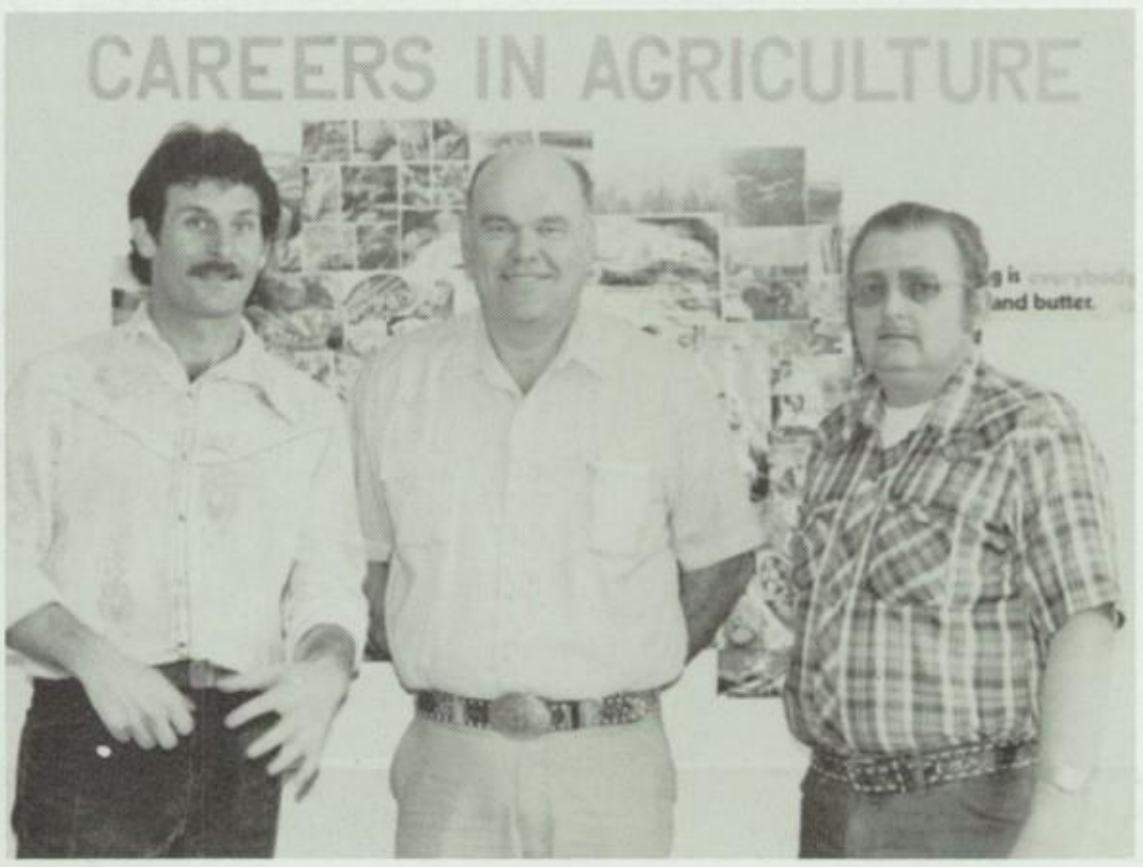
Mr. Baldiviez is in charge of athletics. You can find him at all of our home games, supervising and making sure that everything is going smoothly. He schedules all of our games with other schools, as well as arranging for the referees, bus schedules, and workers at all the games.

Mr. Baldiviez works very hard at making sure all of our teams are successful. He enjoys his job very much and wants to keep the Saints Number #1.

AGRICULTURE

Many students don't know the extent of our Agriculture program at SMHS. Agricultural Science, Soil and Crop Science are just some of the classes offered under our dedicated teachers Mr. Peterson, Mr. Jeffery, Mr. Parker and Mr. Parton. Parton.

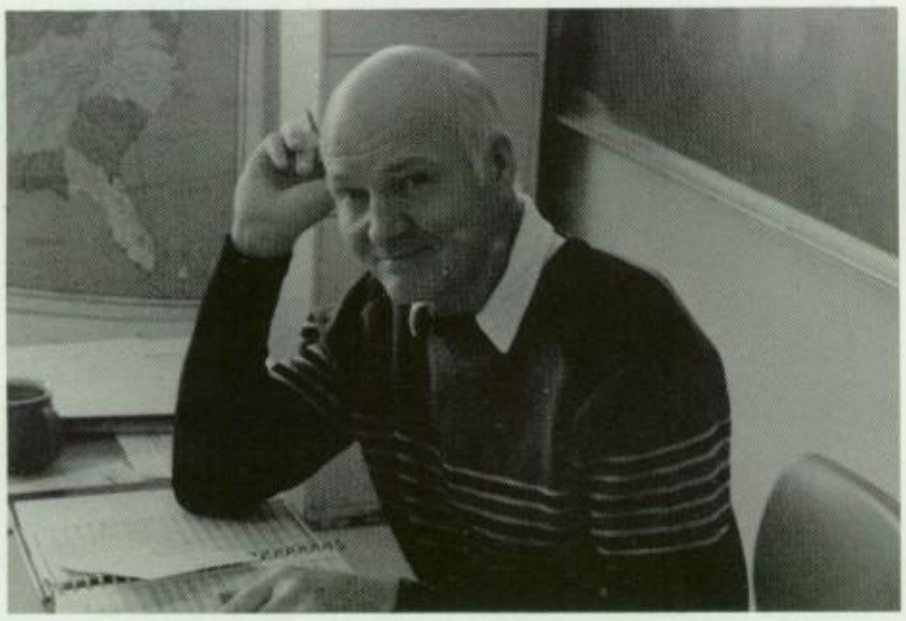
The Agriculture Teams have done very well in competition. This year Floriculture went to Washington, New York, and Kansas City and they became State Champions. Ag Mechanics, Farm Power, and Land also went on to become State Champions. There were also many champions in Livestock shows such as Cow Palace and the L.A. County Fair.



Agriculture Department: Dave Parker, Del Peterson (Department Chairman), Jeff Jeffery. Not Pictured: Mike Parton. (Left) Mr. Parker's Ornamental Horticulture class grows many varieties of plants.

SOCIAL STUDIES

Back Row: David Georgi, Sam Johnson, John Jimenez, John Randall, Tom Urbanske. Ront Row: Frank Russo, Melton McMorris, Jim Orrell



Figuring grades is hard work for Mr. Cooper

Muscle Man Joe Yates and Mary Santoro

The Social Studies Department, headed by Melton McMorris, offers a variety of different courses to the students of Santa Maria High. These courses include U.S., American, World, Ancient, & California History; U.S. & American Government; Introduction to Social Studies; Ethnic Studies, Geography, and Youth and Law. Although the student enrollment has dropped over the years, more courses are being offered including honor and research courses.

This year the Social Studies Department went high tech. Some classes are using computer simulations and video technology to help the students understand the rapid changes occuring in today's society. Computers may be a big step for the department, but the initial objective is to encourage the students to become more involved and independent.

SPECIAL EDUCATION

pecial Education Department: Ludy Simitzes, Linda Thompson, Julie Fromme, Cathy Murry, Crystal Duval, Jo useth, Mark Owens, Gary Knuckles, Alonzo Talamantes, Lee Davis. Not Pictured: Austin Barnard, Angela oyle, Sandra Buck-Moyer, Raul Castillo, Barbara Nolan, Linda Wyatt.

This year two newcomers, Angela Boyle & Lee Davis, were introduced to the special ed. department, headed by Linda Wyatt. Both Angela and Lee came to us from Righetti and we are happy to have them on the staff.

Also, vocal assesment was added to the program. Other courses include vocational education, social studies, math, reading improvement, living skills, and career information resource.

Chrystal Duval smiles for the camera.

MIGRANT EDUCATION

Back Row: F. Sanchez, A. Galindo, F. Miranda, L. Vasquez, L. Jaramillo, M. Ochoa (Parent) Front Row: S. Santana, T. Hill, V. Ramos, J. Hernandez

The migrant ed. department continues to help students complete their education, and it shows. More of their students are completing high school. Migrant education offers tutorial services and also has a work education program.

This year a student, Lourdes Avila, competed for a $500 state wide scholarship for migrant education.

This years transportation department was fortunate enough to end this year with no major injuries or accidents. The 25 bus drivers service S.M.H.S./E.R.H.S./Delta and 11 Elementary schools, covering over 1,364 miles per day and transporting 1,638 students safely to there appropriate destination. These drivers more than earn their pay and a big thank you from all of us.

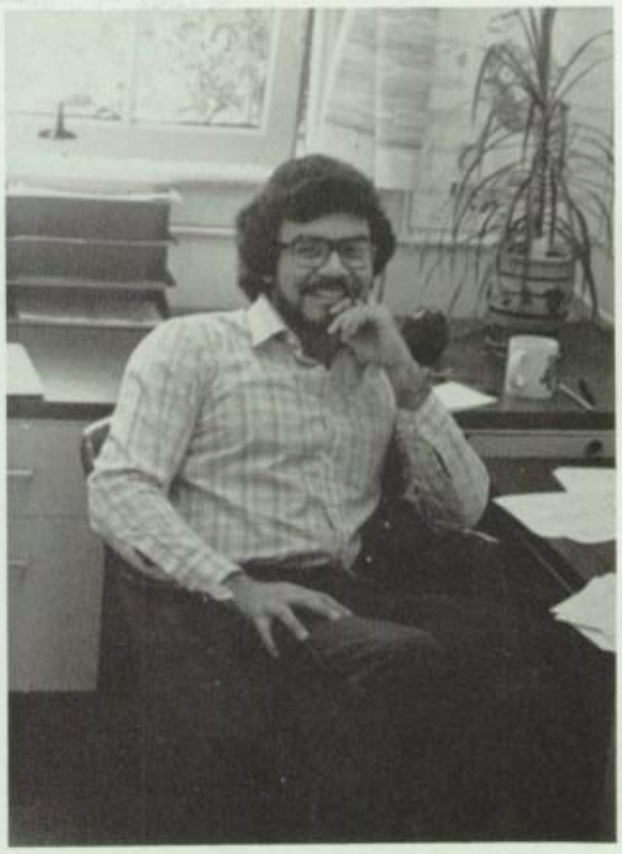
PSYCHOLOGIST



Alonzo Talamantes

The school psychologist, Alonzo Talamantes, has many duties and responsibilities. Some of these duties and responsibilities are psychological testing, counseling of regular and Special Education students; interpretation of test results to parents, students, and staff; recommendations regarding placement of students in special programs and identification of Gifted and Talented Students. He must also provide the above services on "as needed" basis to Cuyama Valley High School.

As the high school has changed its programs and policies, the job of Mr. Talamantes has also varied but the bulk of what he does has remained unchanged. Mr. Talamantes feels that as the years go by he gets better at his job. For the future he hopes to computerize the whole special education process at our high school and he also hopes to continue his education so that he may eventually earn a PH.D.

ATTENDANCE

ATTENDANCE OFFICE STAFF-Sitting; Maria "Crybaby" Moreno Standing; George Meyer

The Attendance Office has undergone many changes this year. One major change is that the entire program is COMPUTERIZED. Maria Moreno (Computer operator and assistant to Mr. Meyer) says that attendance is more accurate, and if a parent wants to find out the attendance of their student, they can now call and get a profile on him/her the same day. She feels the change to computers has been for the better.

LABS

The competency lab or learning lab has also undergone some changes this year. Mrs. Welch is the coordinator and students can get individualized assistance on problem areas in their Competency testing. Mrs. Ball (our math avle coordinator) and Mrs. Welch work together to help the students pass the tests which have to be passed by their senior year in order to graduate. Keep up the good work ladies, you're doing a fine job!

COMMUNITY OUTREACH

DENISE BRANQUINHO

Here at Santa Maria High, we have a new Career Technician, Emma "Rusty" Griffin. For the past few years Rusty has been aide to many different teachers so this is quite a change for her. Though the change is large, she is doing very well as our new career tech. Her job is to help students acquire information on various fields of occupation. She does this through printed materials and the EUREKA computer. The data for the EUREKA is stored at Hancocks Data Center. Amazing how the information can get from Hancock to Santa Maria High. Good Job Rusty!!!

PRINCIPALS' SECRETARIES

The secretaries here at Santa Maria High are special people. They coordinate and sched-le meetings and agendas for the principal and vice-principals. They handle incoming hone calls and help students. Their names are Chris Downing, secretary to Dr. Coridor, arley Abeloe, secretary to Mr. Welch, and Sandy Boyd, secretary to Mr. Miller. They all eem to enjoy our school and really like the students. This school couldn't survive without nem.

ROP TEACHES JOB SKILLS

The Regional Occupational Program is run by the Office of the County Superintendent of Schools in conjunction with the High School District. Programs in the North County are coordinated by Mr. Ken Main. Guidance Advisor for North County Schools is Mrs. Kathy Luis. Mrs. Heather Reese is R.O.P. Technician at Santa Maria High School.

R.O.P. classes give students the opportunity to earn high school credits while learning valuable job skills. Courses are offered both on and off campus, with some featuring job-site placement and training. These options give students a wide variety of vocational experiences.

Classes offered this year were: Advanced Office Occupations, Agricultural Equipment Fabrication, Banking, Building Construction, Commercial Custodial, Computer Accounting, Computers in Business, Greenhouse and Ornamental Horticulture, Landscaping, Meat Processing, Merchandising, Restaurant Occupations, and Word Processing.

1- David always likes having his picture taken.
9- What's so funny, Elaine?
8- Paulet didn't see the photographer sneaking up on her.
4- Having a hard time finding the right picture, Nutan?

R- Natalie's concentrating hard.
E- Marrissa takes time off from her work to smile for the camera.
V- Elaine and Joannette, are you working or having fun?
I- Max seems to be having a good time.
E- Don't get too comfortable, Mark.
W- Okay, Sean, put your toy away and get to work!

S- What's the matter, Winn, haven't you ever seen a camera before?
T- Don't look so serious, Steve.
A- Maria, do you always sleep with a ruler on your face?
F- Don't give up hope, Steve!
F- Lulu's in a hurry to leave.

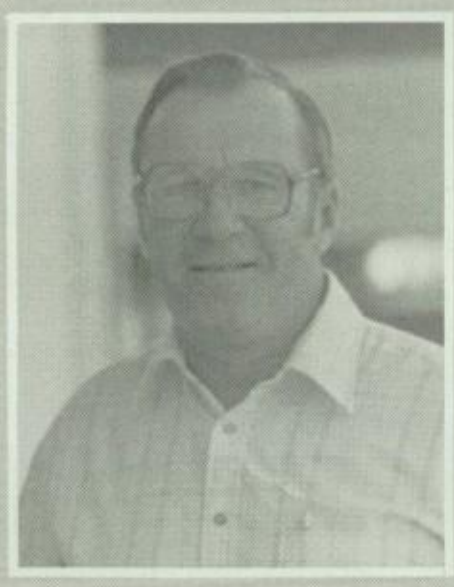
STAFF

FEATURED TEACHER



This year the Review staff has chosen Mr. Chuck Overholtzer as the teacher to whom we dedicate this book.

Mr. Overholtzer is a California native, having been born in a small Southern California town, and attended a high school of only 400 students. After graduation he went on to junior college and served two years in the Army before continuing his education at Cal Poly in San Luis Obispo.

While at Cal Poly he received degrees in Animal Husbandry, Biological Science, Agricultural Education, Counseling, Administration and in 1957 came to teach at S.M.H.S.

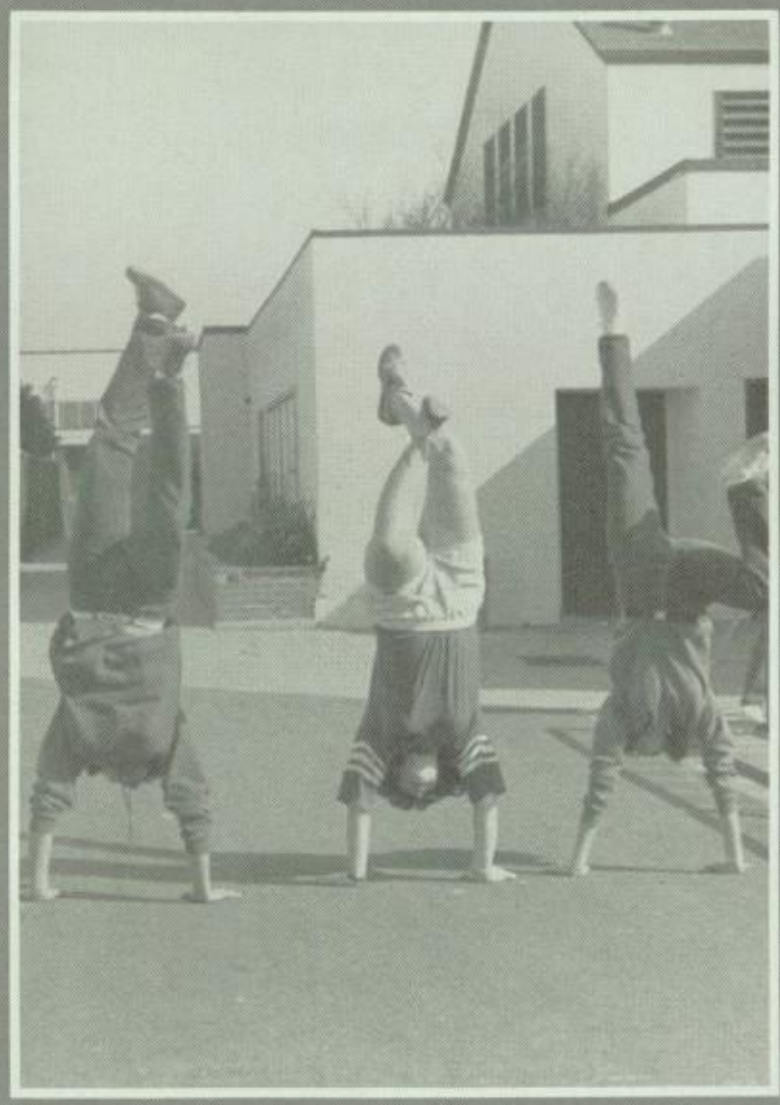
During his 27 years here he has taught in almost every field including Agricultural Science, Mechanics, Life Science, Consumer and Vocational Math, Auto Shop, Welding, Surveying, Farm Power, and has even been a counselor, a Work Ed. coordinator, and F.F.A. advisor.

He is married and lives with his wife on a small ranch where they grow fruits, garden vegetables, hay, and raise cattle.

He has four sons, one daughter, and 2 grandchildren. He enjoys sailing, fishing, farming, and says after he retires from teaching would like to spend more at them. He would also like to spend more time with his grandchildren and hopes to have many more to enjoy.

Mr. Overholtzer is a fine teacher and we thank him for all the time and effort he has put into teaching his students. We thank him for being willing to help out whenever he could and for being understanding when one of his students still couldn't figure out a math problem. We wish the very best for you Mr. Overholtzer. You deserve it!

EDITORS MESSAGE



There are so many things to be said about this year's **Review,** I don't know where to begin. I guess I can begin by saying thanks to Mr. Kevin Statom, whose time and patience is greatly appreciated. Also, being that this is my first yearbook, Mr. Statom's guidance was of great help and value. Without his special talents, this yearbook may not be in its high quality condition, and this is truly a unique and special yearbook for me since I have contributed to its publication.

Watching the yearbook grow was a new experience and also very hectic and time consuming. There were many times when many of us had to work on weekends in order to meet deadlines. Not until this year have I really appreciated the work that the yearbook staff has done to make sure that everyone received "the finished product." Thanks also to Mr. Statom's family (Mrs. Statom, Alex, and Nicholas) for their patience with the yearbook staff, who was responsible for keeping him from his family.

I would also like to thank the entire staff because, even through all those times when the pressure was on and we were grouchy and in a touchy mood, you were able to make me laugh and feel good. You have been great friends, many of which are new-found friendships which could not have been established without being associated throughout the yearbook. I'll miss you all next year and I'm confident that those who will remain next year will continue to work hard and strive to make future yearbooks as great as this one!

Lastly, I'd like to thank my best friend, who is also a yearbook staff member. You know who you are. You're the one who helped me with many (if not all!) of my deadlines and helped to calm me down when I was near hysterics. Mr. Statom even thinks we're a trip. Thanks Bud! Here's to 1984!

I hope that this yearbook contains as many memories for you as it does for me! Our friends, special events, and emotions have been captured by our special yearbook photographers for you and I to treasure for the rest of our lives. So here's to all of you who made the 1983-1984 yearbook extra special!

REVIEW
Co-editor

Crazy, zanie, thoughtful, serious. Everyday is full of emotion, but no matter how hard you try, you can't remember every feeling. You're full of excitement, enthusiasm, and energy. You're special. Spying through a keyhole was not our method - all 27 yearbook staffers were right there in the action and in the middle of every emotion. With expertise, determination, and dedication, we have created the 1984 Review - this is our finest! And as the year comes to a close, the nine graduating staff members are sad to leave, yet from our inspiring advisor Mr. Statom, we have learned the greatest thing in life - no matter how impossible things may seem, we can do anything we want.
